WARNING WATCHDOG™

The contractor-friendly condensing unit security system that offers complete protection

Installation of the voltage monitoring relay and tamper switch is quick and easy.

Extremely loud 118 dB siren can be mounted outside or inside the building.

Dedicated terminals on the logic panel facilitate easy wiring. Auxiliary terminals can also be wired to a central alarm system.

- ALARMS IF DISCONNECT IS PULLED
- ALARMS IF CONDENSING UNIT IS TAMPERED WITH OR TILTED
- ALARMS IF WIRES ARE CUT
- ALARMS ON REFRIGERANT LOSS (OPTIONAL PRESSURE CONTROL)
