

Outdoor Enclosure

Application

The LeakSmart® Outdoor Enclosure is designed for warmer regions where codes allow for plumbing supply lines and main shut offs to be located outside. The LeakSmart valve must be protected from exposure to the elements to assure proper function. This enclosure will protect your LeakSmart valve and allow it to optimally perform outdoors.

Features

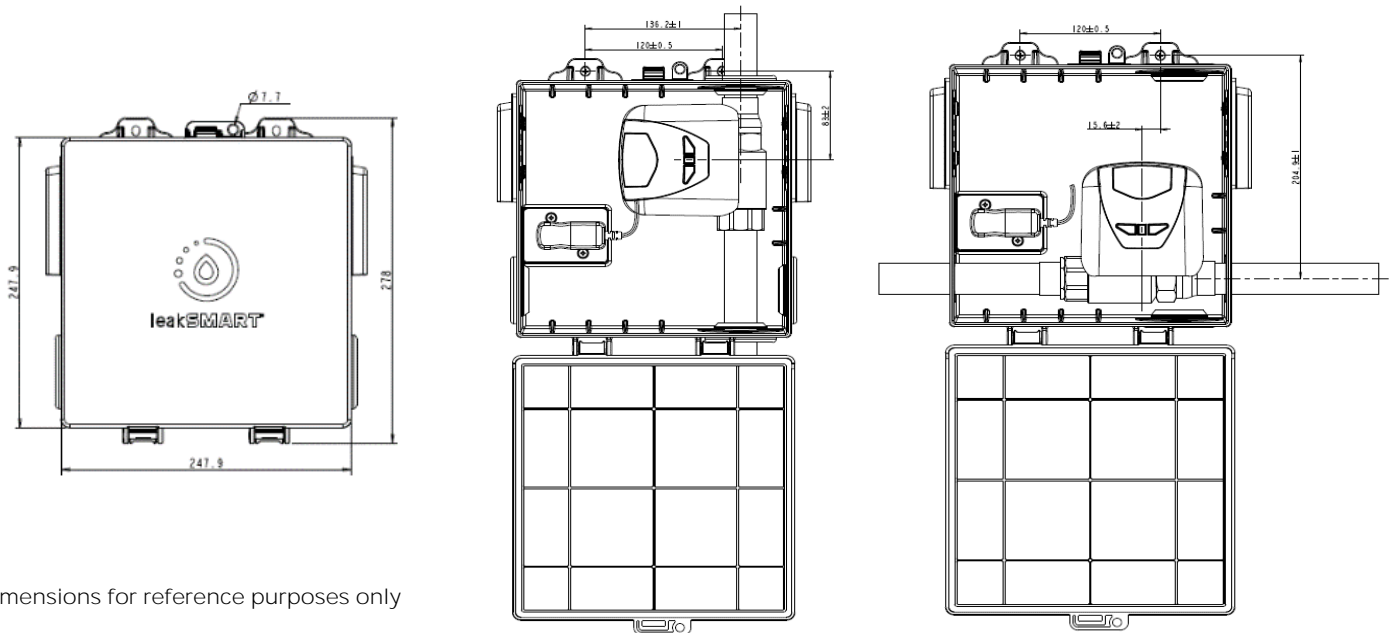

- Detachable door with lock-hole (lock not included)
- Ventilation holes (for hot environments)
- Horizontal or vertical mounting of valve
- Grommets to fit 3/4", 1" or 1-1/4" supply lines
- 100% waterproof
- UV stabilized

Product Specifications

- 1 each - Enclosure housing with detachable door
- 2 each - Fastening screws w/anchors to mount enclosure to substrate
- 2 of each size - 3/4, 1 and 1-1/4" sealing grommets for plumbing supply
- 1 each - 110v outlet housed within electrical conduit box and panel for 1/2" conduit
- 2 each - Rubber plugs

Material

High performance engineered polymer
