

MINI UV LED

The
**DISINFECTING
UV LED LIGHT**
for **MINI-SPLITS**

MINI UV LED

Mini UV LED is the first-of-its-kind UV light LED system for mini-splits and similar limited space applications. Like all A/C systems, mini-splits are prone to internal mold growth and microbial contamination, particularly on and near the blower wheel. The adhesive LED light strip in Mini UV LED is designed to sterilize surfaces while having no impact on plastic materials.

FRESHAIREUV.COM

UV LIGHT LED SYSTEM FOR MINI-SPLITS

BENEFITS

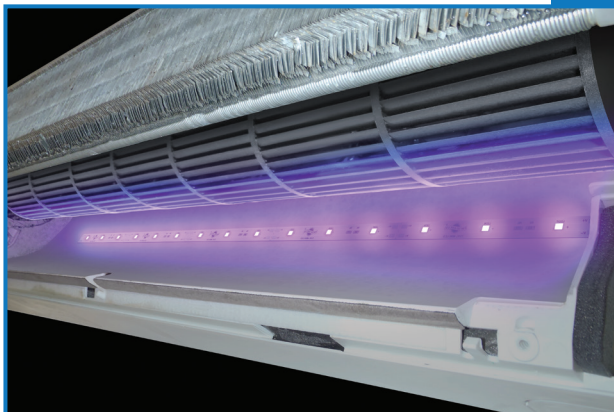

- Maintains a clean mini-split system free from mold and microbial growth
- Saves energy/reduces maintenance costs
- Extends life of mini-split system
- Improves indoor air quality

FEATURES

- Residential & commercial applications
- Fits mini-split & ceiling cassette A/C systems
- Flush-mount nighttime power switch included
- UV LED light is safe for eyes & plastics
- 5+ years effective replaceable LEDs
- Cut-to-length 40" adhesive LED strip
- 120-277 VAC power supply
- 50,000 hour+ expected LED life
- 5 year warranty on all parts

Mini-Split blower with MOLD

Mini-Split blower with Mini UV LED™

*Another award-winning IAQ product
from the innovation leader*

APCO-X

APCO-X combines UVC light and our proprietary EverCarbon™ cells to safely reduce odor causing VOCs and biological contaminants throughout the entire home.

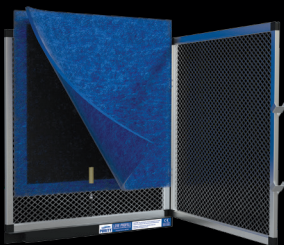

Blue-Tube UV-X

Our most advanced UV light yet. Neutralizes germs, mold and allergens in the air. Saves energy and reduces maintenance costs by keeping your central air system clean.

Purity Filter

The perfect retrofit to replace your 1" HVAC filter with a high efficiency whole-house polarized electronic air filtration system.
