

ALWAYS HAVE THE RIGHT CAPACITOR TO FINISH THE JOB THE FIRST TIME!

MADE IN USA
with global materials

The most universal, permanent
replacement run capacitor
on the market!

**AVAILABLE
NOW!**

**Parts
Connect®**

- Replaces hundreds of different capacitor sizes both singles and duals.
- **All units dual rated for 370/440 VAC.**
- Simple to use. • **Reduces truck stock.**
- Finish the service job in just one trip. You always have the right size capacitor!
- **Sigma Cap holds a US Patent. #10,199,755 B2**
- Each pod can be used as a stand alone unit or stacked to get the MFD value needed.
- **Made in the USA from global materials**
- Saves time and trips to the parts house.
- Permanent fix. No reason to return to the job!
- Individual pods available so you can adjust stock for your most common builds.
- Rotate & stack the pods to add capacitance on the correct side to build the dual capacitor needed.
- Starter Kits supplied in a reusable clear container.
